ACQUIRED DATA SOLUTIONS BRINGS FREQUENCY IN ITS MANY FORMATS TO NATIONAL INSTRUMENTS WEEK

-- Company will give five presentations while at the conference discussing a wide range of technology, products and services--

(Washington, D.C.) – **ACQUIRED DATA SOLUTIONS (ADS)** will be at the **22nd Annual National Instruments Week (NI Week)** at the Austin Convention Center August 1-4 in Austin, TX. The **ADS** team will demonstrate Radio Frequency solutions, Spectrum Defender at the military/aerospace pavilion. In addition, **ADS** will give five presentations during NI Week on the following topics: Cyber physical: The convergence of Cyber-Electronic Warfare and other physical devices, New Optical Sensors that eliminated Electromagnetic interference, Integrated embedded platform to implement Areva’s Caviation Peening techniques to repair nuclear reactors and Insurance Institute of Highway Safety to test and measure the effectiveness adaptive headlights and finally the company will demonstrate how it built an integrated data acquisition platform to collect **BIG DATA** from their Net-Zero house.

“We are extremely proud to have a partnership with National Instruments as well as participate in NI Week over the past several years, said **Steve Seiden, President Acquired Data Solutions.**” “The conference is a wonderful opportunity for **ADS** to showcase all of our partnerships, product offerings and demonstrate the caliber work we are capable of doing to help clients achieve their goals within spectrum measurements.”

ADS team members will be on hand to discuss other areas the company focuses on as well including, **Threat Operational, Testing & Evaluation (OT&E)** as well as their **Engineering Services**. The company has over 20 years’ experience in the testing environment that is beneficial to any customers looking to incorporate Threat OT&E solutions in their business. **ADS’ Engineering Services** is geared towards custom solutions for clients around Radio Frequency and other spectrum measurement technology and devices.

About ACQUIRED DATA SOLUTIONS:

ACQUIRED DATA SOLUTIONS (ADS) is located outside of Washington, D.C. in Rockville, MD and is celebrating 20-years of serving government and private clients since 1997. **ADS** is an engineering company that provides complete solutions for data acquisition, test, operational, and monitoring environments. **ADS** enables customers to solve their complex development and production problems using sophisticated **ADS** engineering services, software and hardware. This includes the ability to emulate environments during the developmental and operational phases before deployment, production or field testing. At **ADS** customers receive expert level knowledge, dependability, dedication, and communications transparency they can rely on for all their project needs.
